

webinar BENELUX BUILDS CIRCULAR

Register by sending your email address to: y.havenga@benelux.int

SAVE THE DATE: 10 September 2020,
10:30 – 12:00

We need to rebuild our economies and our societies in the aftermath of the Covid-19 crisis and the literal building should revolve around reuse of materials, sustainable materials and renovation. The European Commission outlined its ambitions in the Green Deal and Circular Economy Action Plan and the Benelux Member States were already in full action mode.

The Embassies of the Kingdom of the Netherlands and the Grand Duchy of Luxemburg in Brussels and the General Secretariat of the Benelux Union have the pleasure to announce their webinar in which the European Commission and Benelux representatives will share some key features of their policy, new possibilities and developments and chances for cross border cooperation, and how this will find its way in the recovery plans.

This 90 minute moderated introduction and discussion followed by a Q&A will touch upon topics such as recycled content requirements, boosting the market of secondary raw materials, digital logbooks for buildings, energy performance, design, financing and how to bring together the relevant partners in the construction sector.

Our valued expert speakers will be Ms **Josefina Lindblom** (DG Environment, European Commission), Mr **Dieter De Lathauwer** (Ministry of Health, Food chain safety and Environment, BE), Mr **Paul Schosseler** (Ministry of Energy and Spatial Planning, LUX), Ms **Esther 't Hoen** (Ministry of Internal Affairs, NL) and Mr **Mari van Dreumel** (Ministry of Infrastructure and Water management, NL).

Save the date of 10 September 2020, between 10:30 and 12:00 in your agenda and send an email to: y.havenga@benelux.int to receive the link for the webinar.
